

Wiegand & RS485 QR code Reader

QRD-LQRNFC

RFID reader - NFC and QR codes.

New generation of access control card readers, **QR code and RFID access control** system. It has high speed scanning capabilities, recognition rate and is compatible with any access controller that supports Wiegand inputs.

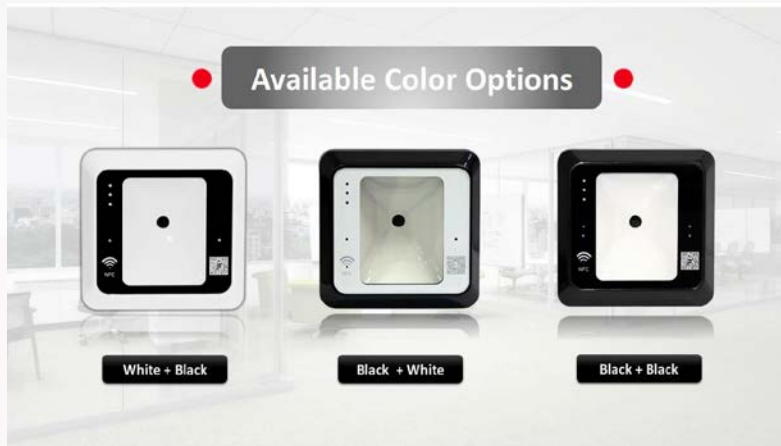

The **QRD-LQRNFC** access control reader also supports RFID card functions such as 13.56 MHz ISO14443A.

It can be applied to manage **residential and neighboring communities, visitor management, hotel management, supermarkets and more.**

QUALICA-RD QRDLQRNFC

Features

- Easy to install. Elegant and robust design.
- IC Ultralight / S50 / S70 / DESFire / EV1 NTag
- W26 / W34 / W66, RS485, USB interfaces
- 13.56 MHz ISO14443A card reader
- Reading range: QR code up to 5 cm, Card up to 4 cm.
- Easy to install on metal door frame or turnstile.
- Indoor operation.

Specifications

Compatibility	13,56 MHz ISO14443A
Wiegand signal	Wiegand, RS485, USB
Power supply	DC 12V (± 5%), USB 5V
Reading distance	QR ≤ 5 CM, RFID card ≤ 4 CM
Reading time (card)	<300 ms
Frequency of operation	13,56 MHz
Operating temperature	-10 ° C up to + 50 ° C
Operating humidity	20% to 80%
Dimension (WxHxT)	86x86x50 mm
USB cable	1000 mm
